

INTERNAL / EXTERNAL CALL

The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Pharmacogenomics and Neurovascular Genetics Group**:

R2A PMP ISCIII 21

About the Unit / Group:

The Pharmacogenomics and Neurovascular Genetics Research Group led by Dr. Israel Fernández, focuses its research on the genetic and epigenetic studies of stroke. It also studies the intestinal microbiota to know the relationship of these microorganisms with the possibility of suffering a stroke. The objective of the group is to carry out a Translational research using these genomic tools, bioinformatic analysis and functional studies in vitro and in vivo. The Group participates

in several international consortia being members of the executive and scientific committees of these consortia. Right now, she is actively collaborating with four of these organisms that have their research focused on the genetics of stroke and/or associated diseases (IGSC, MEGASTROKE, CADIZP and ICPC). The research group currently coordinates a state Genestroke consortium on the same topic that encompasses the work of about 15 hospitals and research centers in Spain.

Essential requirements

- Minimum required qualification: PhD (less than 5 years ago).
- Oral and written knowledge of the two official languages of Catalonia.
- Advanced level of English
- Advanced level of office automation tools (Excel, Word, Power Point, etc).

Skills will be valued

- Analysis of GWAS

Functions

- Performance of genetic data analyses
- Performing bioinformatics analysis

Offered

- Temporary contract attached to the research line "Previctus: Pharmacogenetics to prevent the adverse effects of stroke treatment". This contract is funded by the Carlos III Health Institute, with file number PMP21/00165, and charged to the European funds of the Recovery, Transformation and Resilience Plan.

Resolution of the Management of the Carlos III Health Institute, o.a., m.p., approving the proposal for a provisional resolution for the granting of grants for Research Projects of Personalized Medicine of Precision of the Strategic Action in Health 2017-2020, charged to the European funds of the Recovery, Transformation and Resilience Plan.

- Annual workday of 1.627,50 hours (37,5 hours/week)
- Remuneration according to the ISCIII call
- Research Group: Pharmacogenomics and Neurovascular Genetics

Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir_seleccio@santpau.cat , indicating the reference **2023/017**:

(1) Application letter and updated Curriculum Vitae

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

Santa Creu i Sant Pau Hospital Research Institute Foundation may declare this call for applications closed if, according to its criteria, the candidates does not meet the conditions that the Institution considers necessary to fill the position.

The interpretation of the requirements and their enforceability to the candidates will be exclusive to the Santa Creu i Sant Pau Hospital Research Institute Foundation.

**The deadline for submitting applications
will end on January 27, 2023, at 3:00 p.m.**

Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, sited at C. Sant Quintí, 77-79, 08041, Barcelona, Tel: 93 291 90 50, NIF: G-60136934, as Data Controller and in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) and the Organic Law 3/2018 of 5th of December, on the protection of personal data and the guarantee of digital rights, will treat your data with the sole purpose of developing this call. The legal basis for this treatment is the article 6.1 a, c and f from the GDPR, giving that we will ask for your consent, the treatment is necessary for the application of precontractual measures and its necessary to satisfy the legitimate interests pursued by the Data Controller.

The data will be kept during the necessary time to develop the call.
