

## The Institute

The **Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau** was created on June 4, 1992, is a scientific foundation whose mission is to promote basic, clinical, epidemiological and health services research in the field of health sciences and biomedicine, with the aim of contributing to the improvement of people's health and quality of life. Through the production and dissemination of scientific knowledge, the training of researchers of international level, the generation of health innovations, the application of advances to healthcare practice and health policies.

Located on the Sant Pau Campus, it is a biomedical research centre of excellence affiliated to the Universitat Autònoma de Barcelona (UAB) since 2009, and has been a centre of the CERCA system of Catalonia since 2011.

The Institute is made up of its own affiliated personnel who carry out their research in multidisciplinary groups of basic and clinical research, from the sister entities located on the Sant Pau campus and its surroundings. This means that it has also been recognized since 2011 as a high-level health research centre aimed at developing new techniques and processes through health innovation.

The Research Institute is one of the most active Catalan centres in the production of research work, especially in terms of translational research and the integration of new discoveries into healthcare practice.

In November 2018, the Institute signed its adherence to the CERCA Code of Conduct.

In 2020, the Institute signed the Charter of Commitment to Gender Equality in Research that was supported by 19 Catalan research and health centers and was read during the "Summit for the Advancement and Leadership of Women in Health Sciences", on October 22, 2019 in Girona.

The **Fundació Institut de Recerca de l'Hospital de la Santa creu i Sant Pau** specifies

**CANDIDATES with interest in applying to PFIS calls.**

#### Essential requirements:

- Pre-EHEA degree or bachelor's degree in Biology, Pharmacy or similar with an academic record higher than 7.5 out of 10 (3/4)
- Advanced knowledge of English and computer science

#### Skills will be valued:

- Previous experience in a research laboratory.
- Experience in cell biology techniques: primary cultures and cell lines
- Experience in data analysis and bioinformatics.
- Experience with experimental animals.
- Solid communication skills in English

#### Functions

- Technical and functional studies for the phenotypic and functional characterization of inflammatory cells of the vascular wall
- Studies of the inflammatory response in animal models defective in different genes.
- Studies of protein, mRNA and miRNA expression in human/animal biological samples aimed at identifying and characterizing the role of different receptors in inflammatory processes related to atherosclerotic pathology

Interested parties should preferably deliver the documentation in PDF CV, by e-mail to of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address [ir\\_seleccio@santpau.cat](mailto:ir_seleccio@santpau.cat), indicating the reference **2024/BosesdetreballPFIS01**

**The deadline for submitting applications  
will end on July 30th, 2024, at 3:00 p.m.**

*Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, sited at C. Sant Quintí, 77-79, 08041, Barcelona, Tel: 93 291 90 50, NIF: G-60136934, as Data Controller and in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) and the Organic Law 3/2018 of 5th of December, on the protection of personal data and the guarantee of digital rights, will treat your data with the sole purpose of developing this call.
