

INTERNAL PROMOTIN CALL

The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of the "Excellence in R + D in Research" granted to the IIB de Sant Pau, since 2015.

HIR EXCELLENCE IN RESEARCH

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Neuromuscular Diseases Group**:

R2A – Postdoc Junior

About the Unit / Group:

The Neuromuscular Diseases Unit is a multidisciplinary unit with extensive experience in the diagnosis, treatment and research of neuromuscular diseases. It is a team in which clinical and research activity perfectly overlap and in which clinical problems are addressed in the laboratory to find new biomarkers and diagnostic tools, new pathological mechanisms of the disease and new therapeutic targets. The Unit is made up of neurologists, biologists and experts in basic and translational research.

Essential requirements

- Minimum doctoral qualification required (less than 5 years ago)
- Oral and written knowledge of the two official languages of Catalonia or, failing that, the selected candidate must demonstrate, or undertake to acquire, within a period not exceeding one year, a correct knowledge of the two official languages in Catalonia.
- Intermediate level of English
- Intermediate level of office automation tools (Excel, Word, Power Point, etc).

Skills will be valued

- Experience with autoantibody identification techniques, especially cell-based assays
- Experience in primary neural cultures and myelin co-cultures
- Experience in in vitro models of autoantibody pathogenicity

Functions

- Determination of autoantibodies and other biomarkers for neuromuscular diseases
- Generation and maintenance of primary myelinating crops
- Management of clinically relevant research results database

Offered

- Permanent contract assigned to the research line "Autoimmune Neurology"
- Part-time working hours, 434 hours per year (10 hours/week)
- Remuneration according to agreement
- Research Group: Neuromuscular Diseases

Documentation and deadline for submission
