1. PRESENTATION

Institut de Recerca Sant Pau (IR Sant Pau) is a scientific foundation whose mission is to promote basic, clinical, epidemiological, and healthcare research in the fields of health sciences and biomedicine. It is composed by 70 research groups from the following institutions:

In recent years, IR Sant Pau has focused on establishing an innovative ecosystem aimed at fostering idea generation and equipping research personnel with the skills needed to effectively execute projects. In pursuit of this goal, these two initiatives have arisen:

INNOPAU

A seven-month immersion program for innovative ideas to consolidate them defining road maps and stakeholders.

INNOVATION DAY

An event to connect the Incubated projects and other projects from IR Sant Pau with the private sector, promoting innovation and exploring synergies.

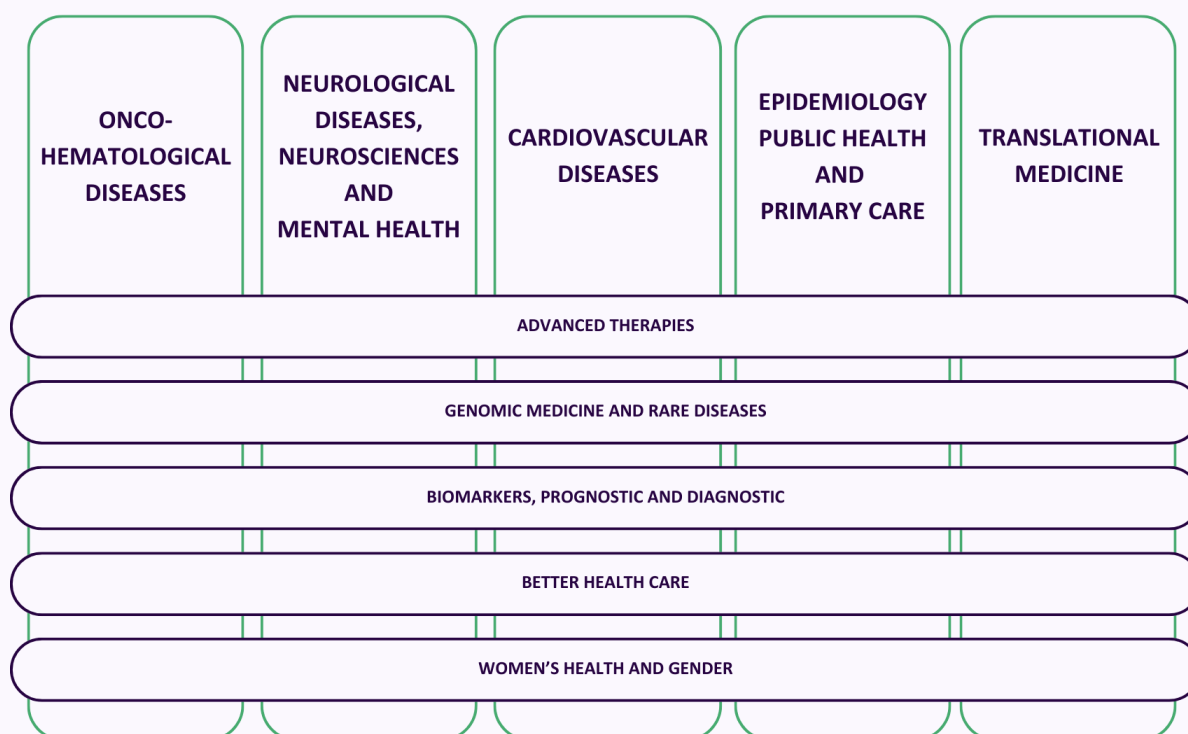

INNPAU PROGRAM AND CONTENTS

All the projects will compete for the INNPAU's award. This award will be destined to the project development.

RESEARCH AREAS

The incubated projects will fall under any of the following scientific areas:

INNOVATION DAY

Aligned with the objective of fostering collaborations with the private sector, an event is scheduled to conclude the INNOPAU program, uniting various stakeholders within the healthcare industry at the IR Sant Pau's premises.

The celebration is set to occur at the Sant Pau Art Nouveau Site in June.

PRELIMINAR PROGRAM

9.00h	Welcome & accreditation
9.30h	IR Sant Pau and INNOPAU program presentation
10.00h	INNOPAU's project pitch presentation
11.00h	Networking coffee
12.00h	Round table – Topic to be determined
12.40h	INNOPAU's award ceremony

PARTICIPANTS FEEDBACK

"The coherence of the roadmap to be followed and the quality of training courses"

"What I liked most was how the innovation environment fostered communication between the different teams"

"For us, it has been key to continuously monitor the project and see the vision of the industry"

OVERALL RATING OBTAINED

3. ORGANISATION TEAM – Who are we?

The department responsible for organizing these initiatives is the Technology Transfer Office (TTO) at IR Sant Pau. Established in 2010, this unit aims to facilitate the management of innovative ideas and ensure their successful transition into society.

TTO collaborates with various private agents and other stakeholders to promptly establish contact and effectively redefine projects through their input and feedback. The majority of training sessions and seminars of INNOPAU program take place at Barcelona Health Hub.

COORDINATORS & MENTORS

Jana Iscla Bosch
Strategic Innovation Manager

Alba Arroyes Morón
Innovation Manager

MENTORS

Miriam Ors Giera
Head of the TTO and Associate
to the Direction of Research

Natalia Ichaso Jimenez
Innovation Manager

Eric Armenteros López
Innovation Manager

SUPPORT TEAM/DEPARTMENT

Laura Diaz Roig
Head of the Communications Unit

Fabiola Fernandez Huertas
Head of the National Grants

Noemí Carranza Herrezuelo
Head of the International Grants

4. SPONSORSHIP OPTION

GOLD – 4.000€

1. Company mentions on all the communications actions from Campus Sant Pau: Communications include: program, social networks and newsletter and website news.
2. Projects information prior to the Innovation Day: Information deck of the incubated projects will be shared in advance in order to organize 1&1 meetings.
3. Company logo on all merchandising as well as on a permanent visual elements on stage – Large Size.
4. Brand visualization throughout the networking event: Different screens located at the networking spaces will display the company logo.
5. Active participation during the Innovation Day **Only for the highest sponsor:* The highest Gold Sponsor will have the opportunity to address the audience in front of the full auditorium. The dynamic is still yet to be determined.

SILVER – 3.000€

1. Company mentions on all the communications actions from Campus Sant Pau: Communications include: program, social networks and newsletter and website news.
2. Projects information prior to the Innovation Day: Information deck of the incubated projects will be shared in advance in order to organize 1&1 meetings.
3. Company logo on all merchandising as well as on a permanent visual elements on stage – Small Size.

BRONZE – 2.000€

1. Company mentions on all the communications actions from Campus Sant Pau: Communications include: program, social networks and newsletter and website news.

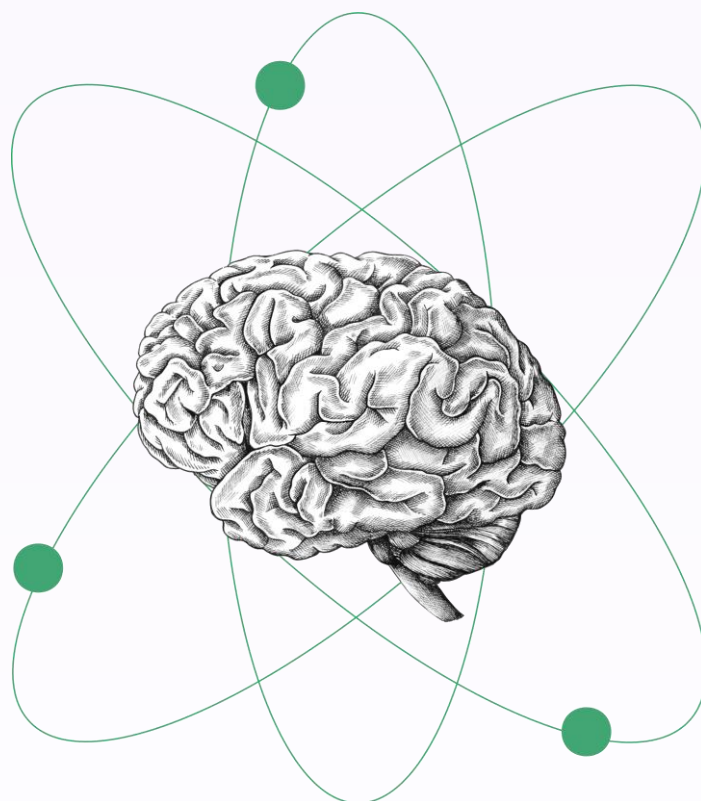

5. OTHER COLLABORATIVE OPTIONS

Other ways to participate in the maturation of innovative projects from IR Sant Pau is during the incubation program itself.

We want to offer you the opportunity to take part as a mentor or trainer over the course of INNOPAU. Some options available would be:

- **OPTION #1 – Mentorship:** Become a mentor throughout “Module 3 – IPR and market strategy”. Mentors will be matched according to their interest and expertise with the different projects, mentoring a maximum of three projects. These individualized sessions are designed to have a duration of 1h.
- **OPTION #2 – Speaker:** Offer a seminar or key note that provides insight from the industry point of view to all incubated teams. These sessions are designed to have a duration of 1 to 2 hours. Open to proposals.

Check out page 3 for the programs’ overview to explore the topics available.
