

INTERNAL / EXTERNAL CALL

The Institute

The **Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau** (IR Sant Pau) is a scientific foundation whose mission is to improve public health and quality of life through the production and dissemination of scientific knowledge, training researchers at an international level, and promoting innovation and health by incorporating medical advances into clinical practice and healthcare policies. Established in 1992, it has been a center of research excellence affiliated with the Universitat Autònoma de Barcelona (UAB) since 2009 and a CERCA (Centres de Recerca de Catalunya) center since 2011.

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate into the Transmissible Diseases research group of the Epidemiology Service of the Barcelona Public Health Agency (ASPB):

T1 PI24 ISCIII

About the Unit / Group:

The Epidemiology Service of the Barcelona Public Health Agency (ASPB) is responsible for carrying out the surveillance, analysis, and interpretation of the city's public health data, aiming to detect trends, identify inequalities, and guide evidence-based policies and preventive interventions. Among its main functions are the surveillance of transmissible diseases, outbreak investigations, and the promotion of epidemiological research.

Regarding sexually transmitted infections (STIs), the Service coordinates the epidemiological surveillance of infections such as syphilis, gonorrhea, chlamydia, and lymphogranuloma venereum, among others, within the framework of the Notifiable Diseases system. This work includes the collection, validation, and analysis of data from laboratories, healthcare centers, and other sources, as well as the generation of periodic reports and collaboration with healthcare professionals and community organizations for the prevention, early detection, and control of STIs.

Through this comprehensive approach, the Epidemiology Service contributes to improving the public health response to transmissible diseases, with special attention to reducing social inequalities and addressing populations in situations of higher vulnerability

Essential requirements

- Minimum qualification required: Higher Degree Professional Studies (Higher Degree Training Cycle / FP II) or equivalent.
- Oral and written proficiency in both official languages of Catalonia, or alternatively, the successful candidate must demonstrate, or commit to acquiring within no more than one year, an adequate command of both official languages of Catalonia.
- Intermediate knowledge of office software tools (Excel, Word, PowerPoint, etc.).

Skills will be valued

- Professional experience and training in the field of sexual and reproductive rights and health.
- Previous work, whether professional or voluntary, with organizations working to defend sexual and reproductive rights and the LGBTIQ+ community.
- Knowledge of the Catalan health system.
- Knowledge of the Catalonia notifiable diseases system, specifically regarding sexually transmitted infections (STIs).
- Professional experience and training in qualitative methodology.

- Interest in working on research lines related to sexual and reproductive rights and health.

Functions

- Contribution to the design and development of instruments for studies on healthcare related to sexual and reproductive health.
- Support in the management and operational coordination of focus groups for projects in the field of sexual and reproductive health.
- Data collection and contact with key stakeholders (organizations and healthcare centres) for identifying research needs or recruiting participants for studies in the field of sexual and reproductive health.
- Support in the implementation and monitoring of the phases of research projects in sexual and reproductive health under the supervision of the principal investigator.
- Collaboration in the management, cleaning, and statistical analysis of data derived from research projects in the field of sexual and reproductive health.

Offered

- Permanent contract linked to the project

This contract is funded by the Carlos III Health Institute, with file code PI24/02150 and “Co-financed by the European Union”

- Annual working hours of 813.75 hours (18.75 hours/week)
- Compensation according to ISCIII salary tables
- Research Group: Transmissible Diseases of the Epidemiology Service of the Barcelona Public Health Agency (ASPB)
