

INTERNAL / EXTERNAL CALL

The Institute

The **Research Institute Foundation of the Hospital de la Santa Creu i Sant Pau** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the training of researchers at an international level, and the promotion of innovation and health by incorporating medical advances into clinical practice and health policies. Established in 1992, it has been a center of research excellence affiliated with the Autonomous University of Barcelona (UAB) since 2009 and, since 2011, a CERCA center (Research Centers of Catalonia).

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the Transmissible Diseases Research Group of the Epidemiology Service of the Public Health Agency of Barcelona (ASPB):

T1A – Junior Laboratory Technician

About the Unit / Group:

The Epidemiology Service of the Public Health Agency of Barcelona (ASPB) is responsible for conducting surveillance, analysis and interpretation of public health data in the city, with the aim of detecting trends, identifying inequalities and guiding evidence-based policies and preventive interventions. Its main functions include surveillance of communicable diseases, outbreak investigation and the promotion of epidemiological research.

Specifically, in relation to sexually transmitted infections (STIs), the Service coordinates the epidemiological surveillance of infections such as syphilis, gonorrhoea, chlamydia, lymphogranuloma venereum, among others, within the framework of the Notifiable Diseases System (MDO). This work includes the collection, validation and analysis of data from laboratories, healthcare centres and other sources, as well as the production of regular reports and collaboration with healthcare professionals and community organisations for the prevention, early detection and control of STIs.

Through this comprehensive approach, the Epidemiology Service contributes to strengthening the public health response to communicable diseases, with particular attention to reducing social inequalities and addressing populations in situations of greater vulnerability.

Essential requirements

- Minimum qualification required Higher Level Professional Studies (Higher Level Training Cycle / FP II) or equivalent
- Oral and written knowledge of the two official languages of Catalonia or, failing that, the successful candidate will have to demonstrate, or promise to obtain, within a period not exceeding one year, a correct knowledge of the two official languages of Catalonia.
- Intermediate knowledge of office tools (excel, word, power point, etc).

Skills will be valued

- Professional experience and training in the field of sexual and reproductive rights and health.
- Previous work, either professional or voluntary, with organisations defending sexual and reproductive rights and the LGBTBIQ+ community, especially with

young people and adolescents.

- Knowledge of the Catalan healthcare system and the different existing services for sexual and reproductive health care.
- Professional experience and training in qualitative methodology.
- Professional experience and training in addressing gender-based violence and LGTBI-phobic violence.
- Interest in working on research lines related to sexual and reproductive rights and health.

Functions

- Support in conducting interviews with young people to identify their sexual and reproductive health needs.
- Support in the operational management required to organise focus groups with young people on their sexual and reproductive health needs.
- Liaison with organisations and healthcare centres in Barcelona that work to improve sexual and reproductive healthcare, especially aimed at young people.
- Support in reviewing and supervising materials on sexual and reproductive health aimed at young people, ensuring a feminist and inclusive LGBTQI+ perspective.
- General support for all research actions aimed at improving access to sexual and reproductive healthcare and information.
- Support in managing and analysing qualitative and quantitative data in the field of sexual and reproductive health.

Offered

- Permanent contract linked to the project Breaking Barriers: A Novel Approach to Youth STI Awareness, Testing, Treatment and Partner Notification in Catalonia – The TESTA'T-iCoNECTA-Joves Project, with the support of Fundació La Marató de TV3 and file number MARATO 202401-31.

- Annual working hours of 738 hours (17 hours/week).
- Salary according to agreement.
- Research Group: Transmissible Diseases, Epidemiology Service of the Public Health Agency of Barcelona (ASPB).

AUTHORISATION FOR PROCESSING PERSONAL DATA

Dear candidate:

The Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, with CIF G-60136934 and registered office at C/ Sant Quintí, 77-79, (08024) Barcelona, as data controller, informs you that it will process your data for the following purposes:

- Receipt of applications.
- Analysis of applications in order to incorporate the worker into the team of the Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, for a current vacancy and for future selection processes that fit your profile.
- To carry out personnel selection processes, as well as to formalise the hiring of the employee, if applicable.
- Comply with the required legal obligations.

The legitimate basis for processing the data is based on the legitimate interest of processing this job offer, in accordance with the provisions of Article 6.1 b) of the General Data Protection Regulation, as your data are necessary for the performance of a contract, which the data subject is a party or for the implementation of pre-contractual measures at his or her request.

However, we inform you that your data (i) will only be processed by those departments or areas of the Institute which, according to their competencies and functions, have an interest in the selection of personnel, (ii) may be communicated to public authorities and organisations, in order to comply with a legal obligation, such as service providers and third parties necessary for the management and execution of the relations derived from the request made and (iii) that they will be kept for the periods foreseen for the prescription of legal responsibilities.

Finally, we inform you that you have the right to access your personal data, to rectify them, to request their deletion, to oppose their processing and to revoke your consent to this processing. In certain circumstances, you may request that we restrict the processing of your personal data, in which case we will only retain your personal data for the exercise or defence of claims. In addition, you have the right to make a complaint to the relevant data protection authority. If you have any questions about the processing of your data you can contact the Entity's Data Protection Officer by sending an email to dpo@santpau.cat.
