

INTERNAL / EXTERNAL CALL

The Institute

The **Research Institute Foundation of the Hospital de la Santa Creu i Sant Pau** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the training of researchers at an international level, and the promotion of innovation and health by incorporating medical advances into clinical practice and healthcare policies. Created in 1992, it has been an excellence research center affiliated with the Autonomous University of Barcelona (UAB) since 2009 and has been a CERCA (Catalonia Research Centers) center since 2011.

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent, and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange, and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit, and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate into the Cerebrovascular Diseases Group:

T2 RD24 ISCIII

About the Platform:

The Cerebrovascular Diseases Group at IR-SANT PAU, led by **Dr. Pol Camps Renom**, focuses its research on ischemic and hemorrhagic stroke. The research is mainly oriented toward clinical projects but also includes translational studies. The group is mainly composed of clinical neurologists specialized in stroke, with postdoctoral or predoctoral training, as well as laboratory research staff (biotechnology) and clinical trial support staff. The group carries out internal projects, either in collaboration with other groups within the same institution or independently, as well as multicenter projects in collaboration with both national and international institutions.

The main research lines are:

- The study of inflammation mechanisms and vulnerability in carotid atherosclerosis.
- Functional prognostic markers of intracerebral hemorrhages.
- Improvement of functional outcomes in acute-phase reperfusion treatments.
- Search for prognostic markers of vascular recurrences.
- Participation in clinical trials in the field of stroke.

Essential requirements

- Minimum required qualification: Higher Education (University Diploma or Bachelor's Degree).
- Oral and written knowledge of the two official languages of Catalonia or, failing that, the selected candidate must demonstrate or commit to acquiring, within a period not exceeding one year, adequate knowledge of both official languages of Catalonia.
- Advanced level of English.
- Advanced level in office tools (Excel, Word, PowerPoint, etc.).

Skills will be valued

- Previous participation in a research project in the field of stroke.
- Experience in communicating scientific results, both in conferences and scientific articles.

Functions

- The main function will be to assist in the coordination and execution of research projects framed within RICORS – STROKE (RD24). All these projects involve laboratory work, in which the person hired will collaborate. These will mainly include projects within two specific work packages: WP2 – Use of biomarkers in stroke subtypes and WP3 – Biomarkers for outcome (stroke complications and recovery).

Offered

- Permanent contract linked to the research line of the Cerebrovascular Diseases Group: Biomarkers of vulnerability in carotid atherosclerosis.
Resolution of December 30, 2024, from the Directorate of the Instituto de Salud Carlos III, granting subsidies for the Cooperative Health Outcomes Research Networks (RICORS) within the 2024 call of the Strategic Action in Health 2021–2023.
