

EXTERNAL/ INTERNAL CALL

The Institute

The **Research Institute Foundation of the Hospital de la Santa Creu i Sant Pau** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the international training of researchers, and the promotion of innovation and health by incorporating medical advances into clinical practice and health policies. Created in 1992, it has been a research center of excellence affiliated with the Autonomous University of Barcelona (UAB) since 2009 and, since 2011, a CERCA center (Research Centers of Catalonia).

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the Cerebrovascular Diseases Group:

ICI25 ISCIII AC6A

About the Unit / Group:

The Cerebrovascular Diseases Group at IR Sant Pau, led by Dr. Pol Camps Renom, focuses its research on ischemic and hemorrhagic stroke. Research is mainly oriented towards clinical projects, but also includes translational studies. The group is primarily composed of clinical neurologists dedicated to stroke, with postdoctoral or predoctoral training, as well as laboratory research staff (biotechnology) and clinical trial support personnel. The group conducts internal projects, either in collaboration with other groups within the institution or independently, as well as multicenter projects in collaboration with national and international institutions.

The main research lines are:

- Study of inflammatory mechanisms and vulnerability in carotid atherosclerosis.
- Functional prognostic markers of intracerebral hemorrhages.
- Improvement of functional outcomes of acute-phase reperfusion treatments.
- Identification of prognostic markers of vascular recurrences.
- Participation in clinical trials in the field of stroke.

Essential requirements

- Minimum required qualification: Degree holders; Engineers; Architects; Graduates with ≥ 300 ECTS credits at Level 3 (Master's); Graduates with a Master's degree (≥ 300 ECTS). Diploma holders, Technical Engineers, and Architects with a Level 3 Master's degree.
- Specific training in Clinical Trials (Master's in Clinical Trial Monitoring) or at least 2 years of previous experience in a similar position.
- Training in Good Clinical Practice and Quality standards.
- Oral and written knowledge of both official languages of Catalonia or, failing that, the selected candidate must demonstrate or commit to acquiring adequate knowledge of both languages within one year.
- Advanced level of English.
- Advanced proficiency in office software (Excel, Word, PowerPoint, etc.)

Skills will be valued

- Knowledge of the diagnosis and treatment of cerebrovascular diseases.
- Experience in cerebrovascular research, including clinical trials.

Functions

- Coordination of the SAVE study: Sevoflurane vs. propofol for general anesthesia in patients with acute ischemic stroke treated with endovascular therapies, and collaboration in other clinical trials conducted in the Stroke Unit: protocol review, site preparation, regulatory compliance, participant recruitment and enrolment (screening and informed consent), data collection, scheduling, sample handling, data entry, and quality control.
- Support for monitoring clinical trials conducted in the Stroke Unit and reporting adverse events.
- Attendance and participation in study meetings, training sessions, and monitoring visits.
- Assistance with internal and external audits, ensuring regulatory standards.
- Training of new staff in study protocols and procedures and participant training.
- Support in budgetary and financial management.
- Maintenance of Unit-specific databases and records requested by the administration.
- Collaboration in the Unit's research studies.

Offered

- Permanent contract linked to the project Sevoflurane vs. propofol for general anesthesia in patients with acute ischemic stroke treated with endovascular therapies.

Resolution of the Directorate of the Carlos III Health Institute, O.A., M.P., granting funding for Independent Clinical Research Projects under the 2025 Strategic Action in Health – Strategic Research Lines in Health.

- Annual working time of 1,627.50 hours (37.5 hours/week).
- Salary according to ISCIII salary scales.
- Research Group: Cerebrovascular Diseases.

Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir_seleccio@santpau.cat , indicating the reference **2025/203**:

- (1) Application letter and updated Curriculum Vitae
- (2) signed Data Processing Authorization**

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

AUTHORISATION FOR PROCESSING PERSONAL DATA

Dear candidate:

The Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, with CIF G-60136934 and registered office at C/ Sant Quintí, 77-79, (08024) Barcelona, as data controller, informs you that it will process your data for the following purposes:

- Receipt of applications.
- Analysis of applications in order to incorporate the worker into the team of the Fundació Institut de Recerca del Hospital de la Santa Creu i Sant Pau, for a current vacancy and for future selection processes that fit your profile.
- To carry out personnel selection processes, as well as to formalise the hiring of the employee, if applicable.
- Comply with the required legal obligations.

The legitimate basis for processing the data is based on the legitimate interest of processing this job offer, in accordance with the provisions of Article 6.1 b) of the General Data Protection Regulation, as your data are necessary for the performance of a contract, which the data subject is a party or for the implementation of pre-contractual measures at his or her request.

However, we inform you that your data (i) will only be processed by those departments or areas of the Institute which, according to their competencies and functions, have an interest in the selection of personnel, (ii) may be communicated to public authorities and organisations, in order to comply with a legal obligation, such as service providers and third parties necessary for the management and execution of the relations derived from the request made and (iii) that they will be kept for the periods foreseen for the prescription of legal responsibilities.

Finally, we inform you that you have the right to access your personal data, to rectify them, to request their deletion, to oppose their processing and to revoke your consent to this processing. In certain circumstances, you may request that we restrict the processing of your personal data, in which case we will only retain your personal data for the exercise or defence of claims. In addition, you have the right to make a complaint to the relevant data protection authority. If you have any questions about the processing of your data you can contact the Entity's Data Protection Officer by sending an email to dpo@santpau.cat.
