

INTERNAL PROMOTION CALL

The Institute

The **Sant Pau Research Institute Foundation** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the international training of researchers, and the promotion of innovation and health by incorporating medical advances into clinical practice and health policies. Founded in 1992, it has been a center of research excellence affiliated with the Autonomous University of Barcelona (UAB) since 2009 and a CERCA center (Catalan Research Centers) since 2011.

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the Urban Health Inequalities Research Group:

R2B Senior Postdoctoral Researcher

About the Unit / Group:

The Urban Health Inequalities Research Group is a consolidated public health research group with expertise in social and environmental determinants of health. Based on social and environmental epidemiology, we study urban health and its unequal distribution and evaluate policies aimed at reducing inequalities.

Our work is structured around three pillars: (1) Urban Health and Social Determinants; (2) Emerging Structural and Environmental Determinants; and (3) Population and Community Interventions.

Beyond generating epidemiological evidence, we assess policy impacts and develop tools for monitoring and decision-making in collaboration with institutional and community stakeholders.
