

The Institution

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** was created on June 4, 1992, it is a scientific foundation whose mission is to promote basic, clinical, epidemiological and health service research in the field of health sciences and biomedicine, with the aim of contributing to the improvement of people's health and quality of life, through the production and dissemination of scientific knowledge, the training of researchers at international level, the generation of health innovations, the application of advances in healthcare practice and health policies.

Located on the Sant Pau Campus, it is a biomedical research center of excellence attached to the Universitat Autònoma de Barcelona (UAB) since 2009, and since 2011 it has been a center of the CERCA system in Catalonia.

The Institute is made up of its own and seconded staff, who carry out their research in multidisciplinary basic and clinical research groups, coming from twinned entities located on the Sant Pau campus and its surroundings. This means that it has also been recognized since 2011 as a high-level health research center aimed at developing new techniques and processes through health innovation.

The Research Institute is one of the most active Catalan centers in the production of research work, especially in terms of translational research and the integration of new discoveries into healthcare practice.

In November 2018, the Institute signed its adherence to the Code of Conduct for CERCA Centres.

In 2020, the Institute signed the Letter of Commitment for gender equality in Research which was supported by 19 Catalan research and health centers and was read during the "Cumbre para el Avance y el Liderazgo de las Women in Health Sciences", on October 22, 2019 in Girona.

The **Research Institute Foundation of the Hospital de la Santa creu i Sant Pau** specifies

**CANDIDATES/ES interested in an Internship at the Scientific
Communication and Outreach Unit**

The Sant Pau Research Institute wants to incorporate an intern for the Communication and External Relations department. The Communication Unit works to disseminate cutting-edge research and innovation, increase the institute's visibility and strengthen its relationship with key stakeholders. The selected person will contribute to the creation of content and support the rest of scientific dissemination and internal communication activities.

Essential requirements:

- Currently enrolled in a Master's or Postgraduate degree in Communication. A Master's in Scientific Communication or a similar field will be especially valued.
- Excellent oral and written command of both official languages of Catalonia: Catalan (level C) and Spanish; good proficiency in English (full professional competence).
- It will be assessed:

Additional valued skills:

- Strong writing and comprehension skills.
- Proactive and creative mindset.

Functions:

- Support to the scientific outreach area:
 - adaptation of scientific outreach content for the general public
 - preparation and development of educational activities
 - event organization
 - support during talks, workshops, and activities open to the public
- Support in the creation of online and offline outreach materials.
- Support to the internal communication area:
 - preparation of newsletters

It offers:

- Curricular internships (company-university agreement)

Those interested must preferably deliver their Currículum Vitae in PDF, by email to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir_seleccio@santpau.cat, indicating the reference **2026/048**

The submission period will end on May 28th, 2025, at 3:00 p.m.

Fundació Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, sited at C.
