

INTERNAL / EXTERNAL CALL

The Institute

The **Research Institute of the Hospital de la Santa Creu i Sant Pau Foundation** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the international training of researchers, and the promotion of innovation and health by incorporating medical advances into clinical practice and healthcare policies. Created in 1992, it is a center of research excellence affiliated with the Universitat Autònoma de Barcelona (UAB) since 2009 and, since 2011, it has been a CERCA center (Research Centers of Catalonia).

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of the "Excellence in R + D in Research" granted to the IIB de Sant Pau, since 2015.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Cancer Epigenetics Group**:

R3A – Senior Researcher

About the Unit / Group:

The **Cancer Epigenetics Group** focuses its research on establishing epigenomic and epitranscriptomic maps for normal and transformed cells, studying the interactions between epigenetic modifications and non-coding RNAs, and developing new epigenetic drugs for cancer treatment.

The research plan for the coming years will expand and innovate the group's previous key contributions in the fields of epigenetics and epitranscriptomics, both at the basic and translational levels, addressing the identity of organs, tissues and cells and how these features become deregulated in disease, with a main focus on cancer.

Main research lines:

- Study the “language” of chemical modifications in DNA and histones (Epigenetics) and RNA (Epitranscriptomics).
- Resolve multi-omic heterogeneity using a single-cell epigenetic approach.
- Elucidate the interaction between RNA modifications and carcinogenesis.
- Identify therapeutic vulnerabilities in cancer for epigenetic and epitranscriptomic drugs.

Essential requirements

- Minimum required qualification: PhD degree (obtained more than 5 years ago).
- High degree of demonstrated independence in research focused on epigenetics and molecular mechanisms of cancer within a research group, with relevant and continuous scientific production.
- Extensive experience and ability to participate in and/or lead one or more research projects.
- Experience in supervising and training junior research staff.
- High level of English and computer skills.
- Oral and written knowledge of the two official languages of Catalonia or, alternatively, the selected candidate must demonstrate or commit to acquiring an adequate command of both official languages within a period not exceeding one year.

Skills will be valued

- Knowledge of molecular genetics.
- Knowledge of cell biology.

Functions

- Develop experiments to study cancer epigenetics.
- Develop experiments to study the cancer epitranscriptome.
- Contribute to the group's collaborative projects.
- Supervise and mentor young researchers.
- Participate in and/or lead one or more research projects.

Offered

- Contract linked to the project **“Tumour-host interactions in liver cancer of childhood and adults (THRIVE)”**
- Annual working schedule of 1,627.50 hours (37.5 hours/week).
- Salary according to collective agreement.
- Research Group: Cancer Epigenetics.

Documentation and deadline for submission

Interested parties should preferably deliver the documentation (1) in PDF, by e-mail to the Management of the Santa Creu i Sant Pau Hospital Research Institute Foundation, address ir_seleccio@santpau.cat , indicating the reference **2026/069**:

(1) Application letter and updated Curriculum Vitae and signed Data Processing Authorization**

At the request of the Santa Creu i Sant Pau Hospital Research Institute Foundation, the candidates must present the documentation accrediting the merits mentioned in the curriculum vitae.

Applications will be resolved within a maximum period of one month from the end of the deadline for submission of documentation. At the end of this period, without having been notified of an express resolution, the interested parties will be entitled to understand that their applications have been rejected.

Santa Creu i Sant Pau Hospital Research Institute Foundation may declare this call for applications closed if, according to its criteria, the candidates does not meet the conditions that the Institution considers necessary to fill the position.

The interpretation of the requirements and their enforceability to the candidates will be exclusive to the Santa Creu i Sant Pau Hospital Research Institute Foundation.

****It is essential to attach the duly signed data processing authorization (document attached at the end of the call)*****

**The deadline for submitting applications
will end on May 29th , 2026, at 3:00 p.m.**
