

## INTERNAL / EXTERNAL CALL

### The Institute

The **Research Institute Foundation of the Hospital de la Santa Creu i Sant Pau** (IR Sant Pau) is a scientific foundation whose mission is to improve the health and quality of life of the population through the production and dissemination of scientific knowledge, the international training of researchers, and the promotion of innovation and health by incorporating medical advances into clinical practice and health policies. Created in 1992, it has been a research center of excellence affiliated with the Autonomous University of Barcelona (UAB) since 2009 and, since 2011, a CERCA center (Research Centers of Catalonia).

For the Foundation, it is a priority to ensure that the most suitable candidate is hired to fill a job through an open, transparent and merit-based selection process (OTM-R). Following these guidelines, staff mobility, knowledge exchange and, ultimately, the increase in the quality of teaching and research will be enhanced. Faithful to our commitment to the European Union's human resources strategy, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee equal access to employability for all. Therefore, the constitutional principles of equality, merit and ability are followed, respecting in all cases the national and international regulations in force in this area, specifically the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (C&C). The principles of C&C are applicable to the recruitment of any personnel of the institution, regardless of their professional category. For this reason, our Foundation has obtained the recognition of "Excellence in R+D in Research" granted to the IIB Sant Pau, since 2015.
